INSTALLATION PREPARATIONS:

1. Please read through the Instructions before installation;
2. The product should be installed by a professional electrician;
3. Make sure the power supply is cut off before installation and maintenance, to avoid the risk of electric shock;
4. Before installing the lighting fixtures, please confirm that the installation surface is firm and reliable to prevent the fixtures from falling;
5. Please keep this Instruction properly for future reference;

INSTALLATION METHOD AND STEPS:

1. Install plastic geckos on the ceiling, and reserve or process wire holes (plastic anchors in parts packages), as shown in Fig.1;
2. Remove the lamp from the packaging box, remove the mounting plate of the lamp, fixed the mounting plate on the ceiling with self-tapping screws, and pay attention to the power cord when fixing through the cable holes on the mounting plate, as shown in Fig. 2 and Fig. 3;

3. Connect the mains power input wire and the lamp power cord with the illustrated waterproof junction box (the illustrated waterproof junction box is not attached), as shown in Fig.4; Note: Yellow and green wire is ground wire marking ($\oplus$), live wire marking "L", Neutral wire marking "N". The positive pole of light modulation has a "+" identifier, and the negative pole of light modulation has a "-" identifier.
4. Install the luminaire: Align the luminaire with the mounting plate, push the luminaire up to the highest position, align the screw through hole on the top of the luminaire with the screw holes on the round rear cover, and screw in, as shown in Fig. 5.
5. After fixing the screws, turn the middle lamp body, and the adjustable Angle lamp can rotate horizontally 0-355° and vertically tilt -25° to 25°, as shown in Fig. 6. Non adjustable angle version is fixed as shown in Fig.7 and Fig.8.
